### 3. LICENSING DECLARATION

The Patent Holder believes that it holds granted and/or pending applications for Patents, the use of which would be required to implement the above document and hereby declares that (check one box only):

<input type="checkbox"/>	<p>1. The Patent Holder is prepared to grant a <u>Free of Charge</u> license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and under other reasonable terms and conditions to make, use, and sell implementations of the above document.</p> <p>Negotiations are left to the parties concerned and are performed outside the Singapore Standardisation Programme.</p> <p><i>Also mark here ___ if the Patent Holder's willingness to license is conditioned on <u>Reciprocity</u> for the above document.</i></p> <p><i>Also mark here ___ if the Patent Holder reserves the right to license on reasonable terms and conditions (but not <u>Free of Charge</u>) to applicants who are only willing to license their Patent, whose use would be required to implement the above document, on reasonable terms and conditions (but not <u>Free of Charge</u>).</i></p>
<input type="checkbox"/>	<p>2. The Patent Holder is prepared to grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions to make, use and sell implementations of the above document.</p> <p>Negotiations are left to the parties concerned and are performed outside the Singapore Standardisation Programme.</p>

	<p>Also mark here ___ if the Patent Holder's willingness to license is conditioned on <u>Reciprocity</u> for the above document.</p>
<input type="checkbox"/>	<p>3. The Patent Holder is unwilling to grant licenses in accordance with provisions of either 1 or 2 above. In this case, the following information must be provided to Enterprise Singapore as part of this declaration:</p> <ul style="list-style-type: none"> <li>- granted patent number or patent application number (if pending);</li> <li>- an indication of which portions of the above document are affected;</li> <li>- a description of the Patents covering the above document.</li> </ul>
<p><b>NOTE:</b></p> <p><u>Free of Charge:</u> The words "Free of Charge" do not mean that the Patent Holder is waiving all of its rights with respect to the Patent. Rather, "Free of Charge" refers to the issue of monetary compensation; <i>i.e.</i>, that the Patent Holder will not seek any monetary compensation as part of the licensing arrangement (whether such compensation is called a royalty, a one-time licensing fee, etc.). However, while the Patent Holder in this situation is committing to not charging any monetary amount, the Patent Holder is still entitled to require that the implementer of the above document sign a license agreement that contains other reasonable terms and conditions such as those relating to governing law, field of use, warranties, etc.</p> <p><u>Reciprocity:</u> The word "Reciprocity" means that the Patent Holder shall only be required to license any prospective licensee if such prospective licensee will commit to license its Patent(s) for implementation of the above document Free of Charge or under reasonable terms and conditions.</p> <p><u>Patent:</u> The word "Patent" means those claims contained in and identified by patents, utility models and other similar statutory rights based on inventions (including applications for any of these) solely to the extent that any such claims are essential to the implementation of the above document. Essential patents are patents that would be required to implement a specific Singapore Standard/ Technical Reference.</p> <p><u>Assignment/transfer of Patent rights:</u> Licensing declarations shall be interpreted as encumbrances that bind all successors-in-interest as to the transferred Patents. Recognising that this interpretation may not apply in all jurisdictions, any Patent Holder who has submitted a licensing declaration - be it selected as option 1 or 2 on the Patent Declaration form - who transfers ownership of a Patent that is subject to such licensing declaration shall include appropriate provisions in the relevant transfer documents to ensure that, as to such transferred Patent, the licensing declaration is binding on the transferee and that the transferee will similarly include appropriate provisions in the event of future transfers with the goal of binding all successors-in-interest.</p>
